

Veterans Home Care

VNS Health is honored to serve our veterans through our Veterans Home Care Program. This program ensures that you or your loved one is partnered with a VNS Health team member who understands and respects your service and your unique needs.

Why Choose VNS Health for Veterans Home Care?

As a veteran, you have a wide range of benefits available to you. However, they can be difficult to navigate and understand.

At VNS Health, we make finding the care you need easier. We know the ins and outs of veterans programs and services, and we will help you find the right support to meet your needs.

We'll also connect you and your loved ones with one of our dedicated veterans liaisons. These experts – who are veterans themselves – will assist and guide you in accessing the many benefits and services available through the Veterans Administration (VA).

How Can Veterans Benefit from a Special Home Care Program?

Whether you would benefit from physical, emotional, or spiritual support, our veterans liaisons are veterans themselves. They know firsthand what military service means, and they have special training to address concerns. Your veterans liaisons understands and can connect you with the right services to support your care.

In addition to providing a veterans liaison, the VNS Health

Veterans Home Care team can also help you:

- Understand VA benefits and eligibility rules
- Figure out the benefits you need
- Apply for and obtain the benefits and services you're eligible for
- Connect with other veterans
- Assist with short-term and long-term chronic health care needs

Is Veterans Home Care Covered by Insurance?

Yes – home care is covered by Medicare, Medicaid, the VA, and most private insurance companies.

VA benefits may vary. In general, benefits for combat or wartime vets are not based on income. However, the eligibility of peacetime veterans may be income based.

To qualify, veterans must have received an honorable, other than honorable, or medical discharge. In most cases, they must have been on active duty for at least 24 months.
